Hi neighbors,

I just wanted to thank all the neighbors who turned up at this year's annual meeting to hear about the process we have been going through exploring the pathway on Coleman Avenue. I really appreciate all the interest and concern you all have expressed with regard to the safety of students on Coleman especially during the peak traffic times.

I hope to hear more about the progress of the meetings with Coleman residents - their input and how the pathway idea develops after speaking with them.

In the meantime, I promise to further explore the idea of a one-way path on Coleman Avenue. With the idea that the "going home from school direction" be the current walk-in-the-street method. I will also ask if the direction of the "one-way" can be changed in the am & pm.

Thank you again for giving up your precious time (and I don't say that jokingly!) this Sunday afternoon to listen to this topic. I'm sure you all had other things you could have been doing & I hope you found the meeting helpful.

Sincerely,

Carla Dewar..... author of the Coleman petition!!
